

Quality Management Policy

In the logistics activities we offer, we agree and undertake

To be improved and developed continuously in line with the applicable requirements of the ISO 9001: 2015 Quality Management System

To produce solutions by following customer feedbacks

To comply with national and international legal requirements and customer contracts

To identify, assess and minimize risks

To keep the satisfaction of our customers and business partners at the highest level

To ensure the compliance of our vehicles and equipment with the changing technology

To raise the awareness of our employees with regular trainings,
